## Huge numbers from the Danish Jamboree 2022

Et tilbagevendende spørgsmål ved store arrangementer er altid, interesse i at få nogle hårde tal ud om lejren. Vi har herunder samlet nogle sådanne tal.

### Mixed numbers

3697 international participants.

100 volunteers in the supermarket.

380 busses.

1350 items in lost and found (as of Saturday).

6043 users on the SL2022 network, which has generated 5,35 terabytes of traffic.

4500 rolls of toilet paper – a total of 2700 kilometers.

### Dinner is served

We have used so much food at the Danish Jamboree:

60.000 pieces of cauliflower.

100.000 slices of cold meat.

34,800 litres of milk – 2320 milk crates.

6 tons oatmeal.

7000 kilograms of chicken.

55.000 sausages.

11.000 whole corncobs.

### And a little dessert

The participants and guests have also bought a certain amount of snacks:

120.000 giffjar (cinnamon rolls) in total (10.000 bags)  
40.000 poser chips.

700 traditional Danish birthday cake-men and cake-women.

## Busy times at the lost and found central

It is not surprising that the lost and found centrals are booming after a week where 32.000 scouts have called Hedeland Naturpark home.

Throughout the week 1538 items have found their way to the lost and found centrals.

At the moment 165 drinking bottles have been forgotten by guides and scouts, probably while they were out having fun exploring all the activities.

In addition, an orthodontic

brace, medication and a whole backpack full of gear are waiting for their owners.

Luckily 416 items have already found their way back home thanks to the skilled people at the lost and found central.

If you realize that you have lost something at Jamboree Denmark 2022 you can contact Lisbet at:

[lisbet.hedelund@sl2022.dk](mailto:lisbet.hedelund@sl2022.dk)

for the next 30 days with a description of the lost item.
