INFORMATION PACKAGE COLLECTION

Jamboree Denmark 2026
July 18th-26th 2026

About the Information package

Dear Leader,

We have created this information package as a collection of the most important information from the four previous information packages. It is useful to have this information close at hand now that the jamboree is very close and the final preparations are underway.

Some of the information is exactly the same as in the information package it was taken from, while some has been updated since publication. There are also a few completely new pieces of information included in this information package that we believe are important for you to have.

Even though we have compiled this summary of the information packages, we know that questions may still arise. You can find answers to the vast majority of questions on the website <https://spejderneslejr.dk> – use the search function or our FAQ if you are looking for something specific.

You are of course also very welcome to contact us at info@sl2026.dk or call us on +45 6089 2026 on Wednesdays from 7.30 PM to 8.30 PM. During the jamboree, our phone line will be open every day from 6.30 AM to 10.30 PM.

- 29 Information and contact details
- 30 How to follow the Jamboree

Foreword by the Jamboree Chiefs

Dear Scout and Guides Leaders,

Hours of planning in your guide and scout groups and in the Jamboree Planning Organization are about to culminate when we meet in Hedeland Naturpark.

The first volunteers have already pitched their tents and started building the jamboree, so that the subcamp squares, activity centres and Spejdertorvet will be ready when almost 30,000 guides and scouts move in.

We look forward to creating Jamboree Denmark 2026 together with you, as we help one another tackle challenges, learn new skills in patrols and form new friendships across groups, municipalities, regions and countries.

In other words, we LOOK FORWARD to seeing you and your guides and scouts at Jamboree Denmark 2026.

**On behalf of the
Jamboree Executive Committee**

Cecilie Viborg Nielsen and Marie Torp Christensen

Registration and payment

Group Registration

Registration for individuals in the group registration closed on July 1st and refunds are no longer given in the event of cancellation. The registration is linked to the individual participant, so it is not possible to replace one registered participant with another.

Payment

The second invoice for the jamboree has been sent to the groups at the beginning of June and covers registrations and changes up to and including May.

At the beginning of July, the third invoice will be sent, covering registrations and changes made in June.

Registration changes in July will be invoiced immediately before the jamboree.

If the group has any outstanding balance upon arrival at the jamboree, it will not be possible to check in. The group will therefore be required to pay upon check-in.

Volunteer Registration

It is still possible to register as International Service Team (IST) at the jamboree. If you have not yet found a role, check the job bank and apply for IST at <https://jobs.spejdernelejr.dk/job/volunteer-for-the-international-service-team-375>

If you already signed up as IST, it is important that you complete your volunteer registration with the days you will participate, even if you sleep and eat outside the jamboree. If you have already registered via the group registration, you must also register in the volunteer registration for the days you are IST, and cancel these days in the group registration.

Volunteer Payment

Invoices and PDF overviews of participation were sent out in early June to volunteers who had already registered. When a new volunteer completes their volunteer registration, they are automatically forwarded to invoicing and payment. However, new volunteers must download their own PDF, which is available on "My Page".

Transportation

Shared transportation

The final travel plans for the shared transportation have been published in week 24. Bus tickets have been issued, sent to the group by email and can also be viewed in the registration system.

Shortly before the jamboree, the groups will receive a telephone number to call in case of questions or problems with the transport arrangements on the two main arrival and departure days. All other enquiries must still be sent via transport@sl2026.dk.

If you discover any errors in the registration for the shared transportation when bus tickets are issued, please contact transport@sl2026.dk as soon as possible. As we are now so close to the jamboree, we unfortunately cannot guarantee that we can accommodate changes, but we will do what we can.

Groups that need to travel part of the way by train

On July 18th groups and volunteers in and around Greater Copenhagen must take the S-train or regional train to either Køge Nord, Ballerup, Taastrup or Høje Taastrup station. From there, buses will take you to the jamboree.

Some of the groups that were previously scheduled to take the train to Høje Taastrup Station have been moved to Taastrup Station, as the transfer conditions are better there.

However, the groups we expect to arrive by regional train must still change at Høje Taastrup. The specific station is stated on the ticket that has been sent to the group.

At Køge Nord Station, the buses will run alternately from the north and south parking areas. Vikingbus (the bus company) will be on site to guide the groups to the correct parking area.

The bus departure time is also stated on the group's ticket. Groups must plan their train journey so that they arrive shortly before this time. The bus will wait in case of train delays, but as the stations do not have good waiting facilities, groups should not take a much earlier train.

For groups travelling by train, details of the train fare reimbursement are shown on the June invoice for groups and self-paying volunteers.

On all other days, all groups will travel by bus.

Transportation

Arrival and departure by bus

We previously announced that all buses would enter from the north. There are now two access routes:

- Brandhøjgårdsvej North with entrance from Hovedgaden in Hedehusene.
- Brandhøjgårdsvej South with entrance from Tune Landevej via Maglehøjgårdsvej.

Whether you arrive by shared transportation or by your own bus, your time of arrival will determine which access road you should use.

July 18th before 8 AM: Brandhøjgårdsvej South

July 18th from 8 AM to 4 PM: Brandhøjgårdsvej North

July 18th after 4 PM: Brandhøjgårdsvej South

July 19th to July 25th: Brandhøjgårdsvej South

July 26th before 8 AM: Brandhøjgårdsvej South

July 26th from 8 AM to 4 PM: Brandhøjgårdsvej North

July 26th after 4 PM: Brandhøjgårdsvej South

Only buses with more than 9 seats may use the bus stops on Brandhøjgårdsvej. Smaller buses are directed to the parking areas (see page 8).

Groups should inform their drivers that it is not permitted to take a break on Brandhøjgårdsvej. Buses may only enter if the driver has enough rest time left to wait at the bus stop and then drive away again. Buses that park illegally may be towed away at the operator's own expense.

We recommend that groups obtain written confirmation from their bus company that the buses used are in good condition and are expected to pass a heavy vehicle inspection.

Transportation

Transport of camping gear and access to the campsite

Groups are responsible for arranging transport of camping gear to and from the jamboree. Shared transportation only includes personal camping gear.

Camping gear sent by haulier must be delivered to the subcamp square where the group will be staying. The group must contact the subcamp chiefs to agree the exact placement of the container (or similar) during the jamboree. The subcamp chiefs can be contacted at ulc@sl2026.dk.

Subcamp Skoven (the Forest): Flinterne 8

Subcamp Havet (the Sea): Tranemosevej 4 S

Subcamp Byen (the City): Thorsbrovej 15 S

Subcamp Landet (the Countryside): Thorsbrovej 17 S

All addresses are in 2640 Hedehusene.

Groups that transport their own camping gear to and from the jamboree may arrive no earlier than Wednesday July 15th. No later than Friday July 17th at 10 PM, all vehicles must have left the campsite.

Only the toilets at the subcamp centres will be open. On the departure day, Sunday July 26th, vehicles may enter the campsite after 4 PM, or once the emergency team gives permission.

Please note that
Brandhøjgårdsvej and Reerslev
are closed to through traffic
for the entire Jamboree
from July 18th to
July 26th.

Parking addresses

Guest parking area: Brandhøjvej 268 (North)

Guest parking area costs DKK 100 per day, payable at the entrance to the parking area.

Parking area for jamboree volunteers and participants: Thorsbrovej 17 T (East)

The groups have been sent parking permits in the package with Skejser wristbands and jamboree badges. Each group has received one parking permit per 50 participants, which gives free access to the parking area. If you need additional parking, DKK 250 is charged per car for the entire jamboree week. Payment is made when entering the parking area and does not need to be booked in advance.

Jamboree volunteers park free of charge. Parking permits are issued at check-in.

VIP and accessible parking area: Brandhøjgårdsvej 21 S (Central)

Accessible parking is free and only available with a valid disability parking permit. Spaces are limited.

Long-term parking area: Stærkendevej 135 S (West)

It is free to park trailers, buses, containers and other transport equipment in the long-term parking area. The groups must arrange transport of these to and from the campsite themselves, unless otherwise agreed with the subcamp chiefs.

Transport in your own bus:

- Brandhøjgårdsvej North: Entrance from Hovedgaden in Hedehusene
 - Brandhøjgårdsvej South: Entrance from Tune Landevej via Maglehøjgårdsvej
- These addresses are used for dropping off and picking up participants.

Kiss and Goodbye

Groups and individuals arriving at the jamboree in their own car who need to drop off or pick up participants must use the following parking areas:

- Subcamp Skoven (the Forest) and Havet (the Sea): Long-term parking area with access from Stærkendevej
- Subcamp Landet (the Countryside) and Byen (the City): Parking area for jamboree volunteers and participants from Thorsbrovej.

Activities

At Jamboree Denmark 2026 there are three types of activities and events:

- Those that are fixed for everyone: The main campfires and Subcamp Day
- Pre-booked activities: Require registration in order to participate.
- Open activities: Open to everyone, both "drop in when you like" and "be there on time" activities

We encourage your group to use the activity catalogue to plan the week: <https://spejderneslejr.dk/en/activities/activity-catalogue/#/>

Fixed Activities

The large opening and closing campfires on the 19th and 25th of July will be held at Scenen (the arena). The closing campfire already starts in the afternoon with a huge shared picnic on the grass, where all the jamboree's participants are welcome to eat together. As a rule, all guides and scouts are registered for the campfires. Further information will follow about the "Hiking Activity". Hiking Activity is an activity which participants will be registered for to plan the walk of the many thousands of scouts and guides to the campfire, so that the logistics around transportation run as smooth as possible.

Subcamp Day is a day-long event where the participants from each subcamp participates together. Each subcamp therefore has its own Subcamp Day (see full week's programme). On the evening before Subcamp Day, there will be an introduction from the Activities and Events section at the neighbourhood meetings, which are held in the subcamp.

Subcamp Day takes place in and around the subcamps. The day will be divided into the age groups 8–11 and 12–17 years. Subcamp Day will be held in the morning and in the afternoon, with a lunch break in between. You can either return to the jamboree for lunch or bring a packed meal.

Activities

Pre-booked Activities

The wish round for activities has ended, and registration for activities now takes place on a first-come, first-served basis. At www.aktilmeld.sl26.dk you can register for activities and edit your registrations up to and during the jamboree.

It is important that everyone taking part in an activity is registered. If the group has received late registrations (after the end of the wish round) and therefore needs extra places on an activity, please write to info@sl2026.dk as soon as possible with the name of the late registrant and the name and time of the activity they wish to register for. We will do what we can to make it work, but we cannot guarantee it in advance. It is not possible to late-register entire groups for wish activities.

If someone is unable to participate in an activity, or if a participant goes home earlier than planned, we ask that the group ensures that the specific guide or scout is deregistered from the activities they will no longer be taking part in. That way, others can have the opportunity to participate. That is good Guiding and Scouting spirit.

This also means we encourage you to keep an eye on the system if you would like more places on an activity that is otherwise fully booked – places may become available that are just what you need.

Read the user manual carefully before you start:
<https://spejderneslejr.dk/en/activities>

Open Activities

Open activities are everything that can be experienced spontaneously at the jamboree whenever you feel like it – without needing to be registered in advance. Please note that open activities may also be marked with “Come on time” in the activity catalogue, which means that you must be there when the activity begins in order to participate. There are open activities at Activity Centre East and in the city of Roskilde, and most open activities are gathered at Activity Centre West. We recommend setting aside a whole day for a trip to Activity Centre West. Here there is an area where you can eat packed lunches or visit food trucks, ice cream kiosks and cafés.

Activities

Activity Buses

Activities (both pre-booked and open activities) can be located at Future Scout Hut, Høje Taastrup, Roskilde, RUC (Roskilde University) and Veddelev harbour. To get to these activities you will generally need to take an activity bus.

Activities at Future Scout Hut, Høje Taastrup, RUC and Veddelev harbour:

When you register for an activity held at one of these venues, you will automatically receive a bus ticket that is only valid for that specific activity's start and end times, and for the number of participants and leaders you have registered.

Activities in Roskilde:

For activities in Roskilde, you must first book a bus ticket yourself before you can register for the activity. The activity buses to and from Roskilde are scheduled to give you approximately 5 hours in Roskilde, which you can use for several pre-booked activities or open activities. We recommend searching for open activities in Roskilde in the activity catalogue to get an overview of the many possibilities.

If your group prefers to arrange your own transport to Roskilde, you must tick this option when registering for an activity in Roskilde.

Important information about bus tickets:

- Bus tickets are **ONLY** valid for the number of participants (and leaders) who are registered.
- Bus tickets are **ONLY** valid for the specified departure and return times.
- You must be at the bus stop 15–20 minutes before the stated departure time.
- The bus departs from the bus stop in the north-eastern corner of subcamp Havet (the sea). The waiting area between Brandhøjgårdsvej and the bus stop is signposted to show exactly where you should wait, depending on your destination.

Special information about overnight activities outside the jamboree

For evening, night and overnight activities outside the jamboree, guides and scouts must bring their own ingredients and Trangia stoves if they wish to cook. This applies unless otherwise stated in the description in the activity catalogue.

Activities

Activity Badge

By working towards the jamboree's activity badge "connect and include", you will explore the five activity themes that are in focus at the jamboree:

- Guides and Scouts
- Community
- Nature and Sustainability
- Crafts and Science
- Culture and Reflection

When an activity has been successfully completed, you receive a sticker, which is placed in the relevant field in the camp handbook. Once all five stickers have been collected, you must show your completed camp handbook at one of the jamboree's information tents to receive your activity badge. The activities that count towards the badge will be listed in the activity catalogue. It is updated on an ongoing basis, so keep an eye on it and plan your week so you manage to try them all.

Friendship Award

At Jamboree Denmark 2026 you can earn the Friendship Award badge together with your team and experience how the guide and scout community stretches far beyond your own campsite. It is all about meeting new guides and scouts, trying international activities and creating friendships across regions, national association or scout organisation and countries. Along the way, you will visit the International Tent, take part in activities and complete tasks together with guides and scouts you do not already know.

The badge programme starts and ends at the International Hub on Lejrtorvet (the jamboree main square). The activity is open to all guides and scouts over 6 years of age and is divided into the two age groups 6–10 years and over 10 years. For the youngest guides and scouts, the aim is to collect 7 stamps, while those over 10 years of age must collect 11 stamps to receive the badge. You do not have to finish it all in one day. The Friendship Award is a pre-booked activity and can be found in the activity catalogue.

Activities

MEGA-event

The MEGA-event is a special highlight on Monday evening, primarily aimed at guides and scouts aged 12–18. It will be an event where the young people themselves set the tone and the energy comes directly from the participants.

The Hour of Reflection

The Hour of Reflection is a calm evening activity period, a kind of low-key culture night at the jamboree. The Hour of Reflection is scheduled for Wednesday evening at 7 PM. At this time, the entire jamboree steps back from the rush of activities and makes space to reflect, talk together and engage with spirituality. The activities will primarily be pitched at guides and scouts aged 8–17, but are also open to adults and children under 8. Children under 8 years are recommended to be accompanied by an adult.

Important information about reflection and spirituality

- The main camp religious service will be held on Sunday July 19th at 1 PM. Remember to register for the activity.
- Materials for devotions and reflection will be available on the jamboree's website.

Spejdermødet (Scout and guide meeting)

Spejdermødet is a lively and playful democratic public gathering for children and young people. It offers a safe and curious space where guides and scouts can explore their own views, reflect on other perspectives and discover how their voice can make a difference. Throughout the week, you can visit Spejdermødet in its dedicated area, with a particular focus on Wednesday when it features more extensive activities.

Fri-rum (free-space)

Fri-rum is for everyone who deserves a break: leaders, volunteers, group helpers, senior/clan guides and scouts and everyone in between. An evening of appreciation, entertainment, live music and community on Tuesday at 8 PM at Scenen (the arena). The area opens already at 7 PM, so come and enjoy fri-rum in good time.

FOOD SUPPLIES

Meals at the jamboree

Each group is responsible for preparing all meals at the jamboree. A jamboree day runs from dinner to lunch the following day. This means that the jamboree's first meal is dinner. It is possible to prepare a lunch bag in connection with breakfast in the group's camp at the jamboree.

The groups can prepare meals using the recipes from the cookbook. The cookbook will be given out in a printed version to all groups. One cookbook will be given out per 50 registered participants when checking in at the camp. The cookbook is also available in a digital version at <https://spejderneslejr.dk/en/scout-leader/food/>.

A spice box will also be given out to all groups. The spice box will be given out in the food supplies distribution.

If the group has dietary requirements or allergies beyond what can be entered in the registration system, it is the group's own responsibility to take these into account when preparing the food.

For each day, in addition to the chosen dish for dinner, there is also a dessert.

Saturday July 18th: Pancakes

Sunday July 19th: Popcorn

Monday July 20th: Campfire bananas

Tuesday July 21st: French toasts

Wednesday July 22nd: Bread on a stick

Thursday July 23rd: Campfire baked apples

Friday July 24th: Marshmallows

Saturday July 25th: Koldskål (cold buttermilk soup)

Freezer blocks

Two freezer cabinets have been set up in the food supplies distribution areas where groups can freeze their own freezer blocks. Freezer blocks are handed in and collected during the distribution opening hours. The food supplies distribution points are not responsible for the cabinets, so it is up to the groups themselves to make the system work. It is recommended that you store the freezer blocks in a closed bag with the group's name clearly marked.

reezer blocks

FOOD SUPPLIES

Collection of food supplies

The food supplies distribution is an "open" distribution point where groups may freely come and collect the basic items they need. The available basic products are listed in the product range below.

Special items for the evening meals are distributed according to the number of guides and scouts in the group on the given day. Items are distributed group by group, as the staff at the distribution point scan a registered jamboree wristband. This shows which evening meal the group has chosen and what quantities of the various items the group will need, including special items related to allergies and dietary considerations.

The group must register Skejser wristbands for collection in the group's registration in the registration system. We recommend that all leader wristbands (light green) are registered.

Items marked with * must be ordered in advance via the registration system and will be handed out by a staff member at the food supplies distribution point.

Opening hours for the food supplies distribution

18/7: 1 PM - 7 PM

19/7 - 25/7: 6.30 AM - 7 PM

26/7: 6 AM - 9 AM, subcamp Skoven (the forest) open until 2 PM

Vegetables

Cucumber
Organic tomato
Potatoes
Carrots
Apples

Dry goods

Conc. fruit juice light
Conc. fruit juice

Strong mustard
Oat drink, barista
Pea drink, barista
Pasta
Rice

Bread

Organic seeded rye bread, 28 slc
Classic favourite rye bread, 27 slc
Organic dark rye bread, 28 slc
Wholemeal sandwich bread, 18 slc

In the fridge

Free-range eggs
Organic semi-skimmed milk
Sliced cheese 45+ ML
Spreadable butter
Hummus
Smoked pork loin
Chicken breast
Organic chicken liver pâté
Liver pâté
Spiced rolled sausage
Salami

Allergy and dietary considerations*

Rye bread, gluten-free
Sandwich bread, glutenfree
Organic cornflakes, gluten-free
Rolled oats, gluten-free
Organic semi-skimmed milk, lactose-free
Organic vegan and lactose free block,
Vegan mayonnaise
Vegan cold cuts
Hummus with sundried tomatoes
Bananas, vegan

Skejser

Distribution of Skejser wristbands

All volunteers and international groups will not be sent Skejser wristbands in advance, but must instead contact the Information Tent in the subcamp on arrival.

We are not able to send out Skejser wristbands to international groups beforehand, and it is also not possible to collect them before the jamboree.

Creating a Skejser account

All participants are encouraged to create their Skejser account before the jamboree starts at <https://skejser.dk>. Even if you have not yet received your Skejser wristband, both participants and members of the Planning Team or Service Team (IST) can create their Skejser account and transfer money to the account before the jamboree.

The account must also be linked to a campOS ID, also called a participant number. The participant number can be found as follows:

Participant in a group: The person responsible for registration finds the participant number by logging in to <https://tilmelding.spejdernelejr.dk/en>. Under "View/edit existing participants" you will find each participant's number.

Volunteers: Volunteers log in to <https://tilmelding.spejdernelejr.dk/en>. On "My page", under "Profile", they will find their participant number.

Upon arrival at the jamboree, once you receive your Skejser wristband, the wristband ID (the lower digits on the back of the chip) must be linked to the account and the money transferred to that specific wristband. After this, the wristband is ready to use in the jamboree's shops.

Skejser and letters to the jamboree

Use of Skejser wristbands during the jamboree

Guides and scouts who do not have a payment card can use the Skejser wristband to pay. Please note that you can only pay with your Skejser wristband in stalls and shops on the jamboree site.

If the wristband is not on your arm, it is not possible to use it at points of sale unless it is attached to your ID card (for example for volunteer kitchen and healthcare staff).

Even if the Skejser wristband is not used for payment, it must still be worn on your arm, as it serves as proof that you are a participant at the jamboree and gives you access to activities, activity buses and the adults only area.

It is important that everyone wears a Skejser wristband in the correct colour. If we see that a participant is wearing the wrong wristband, it will be cut off and a new wristband must be created on the Skejser account.

You can find answers to many more questions in our updated version of the FAQ. If you do not find the answer there, please contact us at skejser@sl2026.dk or call the Information Centre on +45 6089 2026.

Letters to the jamboree

It is possible to send letters to the jamboree. The letter will be delivered to the Subcamp square, where the group can pick it up in the information tent daily.

The following must be stated on the letter:

(Scout's or Guide's name)

(Scout or Guide group's name)

(Scout or Guide group's jamboree municipality)

(Subcamp and subcamp address at the Scout or Guides Camp)

Jamboree Denmark 2026

2640 Hedehusene

The addresses of the subcamps can be found here:

Subcamp Skoven (the forest): Flinterne 8

Subcamp Havet (the sea): Tranemosevej 4 S

Subcamp Byen (the city): Thorsbrovej 15 S

Subcamp Landet (the countryside): Thorsbrovej 17 S

If you want to send a greeting to a scout, remember that you can also order goods in our webshop for direct delivery to the jamboree at <https://spejderpost.dk/en>. For example, you can order sweets, snacks, cakes for birthdays or celebration or merchandise which will be delivered directly at the jamboree.

Campsite rules

Tents and campsite layout

We use standardised rules for how groups may structure a campsite. The jamboree does not wish to limit groups in their opportunity to put their own mark on their campsite. Instead, we want groups to understand what Jamboree Denmark 2026 and the authorities expect of the campsite layout.

Tents for overnight stays may be set up in clusters. A maximum of eight tents is allowed in each cluster. There must be at least two metres between tent clusters, measured from guy line to guy line.

If tents of teepee/laavu construction are set up in a cluster, the distance to the surrounding clusters must be large enough that no part of the tent can reach the surrounding clusters if the teepee/laavu construction topples. However, the distance must always be at least two metres from guy line to guy line.

Campfires

There must be at least three metres between tents and campfire sites, including elevated firepits and other campfire set-ups/gas burners. The distance must be measured from the edge of the campfire site (the inside of any edging such as wood or stones) to the nearest part of the tent (guy line, tent fabric or pole).

Quiet time in the camp

There must be quiet in the camp at 11 PM. If you, as an adult over 18, would like to meet in a community with other adults over 18, visit the Adult Area. The Adult Area is open from 9 PM to 1.30 AM.

Campsite rules

Wet Pits

Jamboree Denmark 2026 is located in two main sections: Hedeland Naturpark and farmland east of the town of Reerslev.

Hedeland Naturpark is a section that was previously used for gravel extraction. This means that the water which now seeps down into the ground is not filtered as effectively before it reaches the groundwater.

The section east of Reerslev has been found to contain many archaeological remains from the Middle Ages. Therefore, the local museum wishes to keep digging in this section to an absolute minimum in order to preserve archaeological remains from houses and settlements.

It is therefore not permitted to dig wet pits. Instead of grease traps, slop sinks for wastewater disposal will be available at all toilet sections in the subcamps. We recommend that groups bring transport barrels with lids for carrying wastewater. The slop sinks will be structured so that there is maximum 40 cm from ground level to the point where the wastewater is poured out.

Firefighting equipment

A fire bucket of at least 10 litres must be placed at each tent used for overnight stays. The bucket must be filled with water. If several tents are set up in a cluster (up to eight tents), the total number of fire buckets may be reduced. However, each tent cluster must always have at least three fire buckets.

A fire bucket of at least 10 litres must be placed at each campfire site. The bucket must be filled with water.

A manual water pump fire extinguisher or a pressurised water extinguisher (minimum nine kg) must be placed on the campsite. If a manual water pump fire extinguisher is used, its water tank must be full. If these are replaced with a large garden sprayer, it must be clearly marked "Brandmateriel" and supplemented with a full water container or fire bucket so that at least 10 litres of water is available.

In addition, there must be at least one fire beater (remember to teach the guides and scouts how to use these correctly).

Firefighting equipment must be placed where it is clearly visible and easily accessible.

Powder extinguishers are not allowed on the jamboree.

Campsite rules

Wooden pole structures

Wooden pole structures under four metres in height, where there is no planned occupancy above two metres (for example dining tables, entrance gateways or tripods for hanging equipment), may be built without a permit.

The wooden pole structures listed below, however, require approval from the authorities via the jamboree's emergency services before the jamboree. Applications for wooden pole structures that require a permit are now closed.

- Wooden pole structures with planned occupancy at a height of over one metre, where people will be sleeping
- Wooden pole structures with planned occupancy at heights of more than two metres
- Wooden pole structures exceeding four metres in height (excluding flagpoles and other single masts)

Confetti

It has been decided that Jamboree Denmark 2026 will be held confetti-free. This means that no type of confetti may be used anywhere on the jamboree site. This also applies to confetti that is otherwise sold as biodegradable.

Campsite rules

Solar Panels and Battery Banks

The following rules apply to the use of solar panels and battery banks at Jamboree Denmark 2026. The guidelines have been prepared to prevent fires and ensure a safe jamboree for everyone.

The rules apply to:

- Self-built solar panel systems with associated battery banks
- Commercial solar panel systems and battery banks
- Battery banks in trailers or other mobile units

General Requirements

- Battery banks must be placed well away from all combustible materials, including tents, tarpaulins and vegetation.
- The system must not be left unattended while charging.
- Cables and connections must be properly installed and protected against mechanical damage.
- The capacity of the battery bank must not exceed what is necessary for the group's needs at the jamboree.

Home-Built and Self-Installed Systems

Home-built systems are allowed, but the following additional rules apply:

- The system must be correctly assembled and must not present a fire or electricity safety risk.
- Connections between solar panels and battery packs must be made correctly with appropriate fuses.
- The jamboree reserves the right to require the removal of any systems considered unsafe.

Location in Trailers

Battery banks may be installed in trailers provided that:

- The trailer is ventilated so that gas generated during charging can escape.
- There is free access to, and clear visibility of, the system.
- A CO2/water extinguisher is located immediately next to the trailer.
- The trailer is placed at a sufficient distance from tents and combustible materials.

In the Event of a Battery Fire

Fires in lithium batteries are difficult to extinguish and can flare up again. In case of fire evacuate the area immediately. Contact the jamboree's control centre on tel. +45 81 112 112. Keep at a safe distance and let the emergency services handle the firefighting.

Garbage and recycling

In Information Package 4, we announced that we were working on an effective garbage sorting system that groups would be able to purchase at the jamboree. As we do not believe we have found a solution that is good enough to put into use, this will unfortunately no longer be an option.

Instead, here are some useful tips on how to create a good garbage sorting system for your jamboree.

We recommend that you have six different garbage bins in your jamboree camp for:

- Food waste
- Metal
- Cardboard/paper
- Plastic/food and drink cartons
- Glass
- Residual waste

Remember to involve the guides and scouts when you make signs for the different types of garbage. It is both a good activity and helps the guides and scouts take ownership of how their garbage is handled.

All garbage (including food scraps) can be put in clear plastic bags, which are provided at the food distribution point.

Four ways to organise garbage sorting at the jamboree

- 1) Use foldable garbage stands, which are easy to transport and simple to set up at the jamboree. With foldable garbage stands, you avoid the hassle of complicated set-up or pioneering a garbage solution, and still get something that looks reasonably good.
- 2) Combine the classic under-the-sink bin with a stand made from poles. By screwing the bin holders onto a pole, you can combine pioneering with a solution where the bags stay securely on the stand. Remember to remove the screws before you return the poles!
- 3) Most guide and scout groups already have buckets that can easily be used as garbage bins. This is a simple solution for groups that would like garbage sorting that does not use too many resources or leader hours.
- 4) Your very own creative solution that looks exactly how you want it to and fits perfectly with your jamboree camp. Ideal for those of you who want a real guide and scout challenge, where you use both your head and your hands. If you come up with something really impressive, we would be delighted to come and see it at the jamboree!

Pharmacy and showers

Pharmacy

Copenhagen Øresund Pharmacy is opening a branch at Jamboree Denmark 2026, Patrujleapoteket Hedeland. The pharmacy will be located at Spejdertorvet and will be open from Saturday July 18th to Sunday July 26th, from 10 AM to 4 PM every day.

The pharmacy offers prescription processing, medicines advice, sales of over-the-counter medicines and other pharmacy products.

The pharmacy can dispense prescriptions from the danish health care system directly at Spejdertorvet. If the medicine is not in stock, it will be ordered for collection the following day. In addition, it will be possible to order medicine via their website www.dinapoteker.dk/a/oeresund and select Patrujleapoteket Hedeland as the collection point.

Showers

Jamboree Denmark has received a grant from the Entrepreneur Marius Pedersens Foundation.

The foundation has chosen to support the jamboree so that participants with special needs can have free showers. The intention is that no one should opt out of showering or going to the jamboree because a shower costs money.

The agreement with the foundation is that participants with cognitive or physical disabilities, special medical needs or similar, as well as participants from, for example, socially disadvantaged families or children with limited financial resources, are completely exempt from payment.

The exemption is administered by allowing participants or their leaders to pick up free shower tickets at the information tents. There are no documentation requirements or special attention to this. Please note that tickets are distributed on a first-come, first-served basis and that the jamboree only has a limited number of shower tickets available.

Jamboree Denmark would like to thank Entrepreneur Marius Pedersen's Foundation for the support!

Guests and Family Camp

The jamboree is open to visitors throughout, and it is free to visit the jamboree. However, we do not recommend visiting on the arrival day, July 18th, or on the departure day, July 26th.

It is up to each individual group to decide whether to have a single visiting day or to be generally open for visitors.

Please note that distances around the jamboree are considerable, and it is each guest's own responsibility to be able to walk around the jamboree. Guests are welcome to take part in the many open activities that do not require registration, and they are also welcome at the large opening and closing campfires.

Guests can park in the guest car park, which costs DKK 100 per day.

Guests can buy food from food trucks at Spejdertorvet (the jamboree main square), and there is also the option to buy coffee and ice cream. Credit cards are accepted throughout the jamboree.

City buses are running between the camp and both Roskilde and Høje Taastrup. Read more at <https://spejderneslejr.dk/en/traffic>.

Family Camp

If your guests would like to visit the jamboree for a few days, the family camp is an overnight option. You can register for the family camp without being registered for the jamboree itself. The family camp works like a caravan site, where you can bring your tent, caravan or motorhome. Please note that meals are not included in the price, but food can be purchased from the jamboree's food trucks and cafés.

Reservations for a square in the family camp are made via the registration system, which can be accessed on the jamboree's website. You can register for the family camp right up until the jamboree starts. However, we have a limited number of squares, and some days may sell out.

Payment for the family camp is made upon arrival. We only accept card payment, not MobilePay or cash.

You pay for the stay per unit per day:

- Tent or camplet DKK 350 (max 15 m2)
- Caravan or motorhome DKK 400 (max 25 m2)

The price includes electricity consumption, and each unit should expect to contribute ½ hour of work daily for the community.

Information and contact details

Jamboree App

The jamboree app is here... almost! We have worked hard, tested, listened, reflected and adjusted, and now the app is almost ready. At the beginning of July you will be able to access it via this link: <http://app.sl2026.dk/en> It is a web app, so you will not find it in the App Store or Play Store.

Right in your pocket you will have:

- The programme – both your personal one and the jamboree's full programme
- A map of the jamboree, so you can find all the great activities ... and find your way back home again
- Practical information such as opening hours, contact details and the cookbook

We keep notifications to a minimum and store data locally on your phone, so we can all enjoy the jamboree in peace and quiet. It is important to us that being present with one another is supported by easy access to information, but not diminished by it.

Remember that it is a good idea to talk with your group about responsible mobile phone use during the jamboree.

Although we are very proud of the app, it is not essential at the jamboree; it is simply an extra option. You and your guides and scouts can easily enjoy a fantastic jamboree without it.

Important phone numbers during the jamboree

The jamboree has its own control centre, which you can contact when you need help (ambulance, fire and rescue, faults in technical installations (e.g. toilets), etc.).

Emergency number: +45 81 112 112

The emergency number is used on the campsite when you would normally call 112.

Operations centre: +45 7060 1626

Non-emergency calls should be directed to the operations centre. For example, this might be requests for craftsperson assistance or to report faults in installations.

Jamboree Information Centre: +45 6089 2026

For all questions that arise during the jamboree. The phone line is open from 6.30 AM to 10.30 PM.

HOW TO FOLLOW the Jamboree

The jamboree is undoubtedly best experienced in Hedeland Naturpark. However, if you are a parent, friend, curious neighbour or simply do not have the chance to visit the jamboree and feel the atmosphere on site, you can still follow life at the jamboree.

Throughout Jamboree Denmark 2026, more than 150 volunteers will be working to share stories from the jamboree. They post photos and videos, produce podcasts, write articles and keep you updated on social media, so you can catch some of the jamboree spirit wherever you are.

You can already follow the jamboree on social media and discover all the exciting things that are going to happen. During the jamboree we will make sure the channels are packed with posts, photos and videos of happy guides and scouts.

Instagram: @spejderneslejr
Facebook: Spejdernes Lejr
YouTube: Spejdernes Lejr
LinkedIn: Spejdernes Lejr

In addition, you can follow the jamboree on the jamboree's website <https://spejderneslejr.dk/en>, where you will find updated articles from the jamboree every day, see photos, check the daily programme and learn more about how to visit the jamboree as a guest. The daily podcast from "Spejderliv" is also released on the website and on the platforms where you normally listen to podcasts every day at 3 PM during the jamboree.

You can also follow the jamboree in national, regional and local media. If you are at the jamboree, you can use the jamboree's app to keep track of the programme, activities and practical information, whether you are a participant, leader or guest. Read more about the app on page 29.
